

"I need a vibraslap. Can you help?"

Harborne and Arthur is one of the few music shops around where that question wouldn't raise eyebrows. That's because their staff know about instruments – and they know their customers. Which means that when you go there, you'll find the largest selection of quality equipment for everyone from experimental percussionists to exacting home-recordists under one roof.

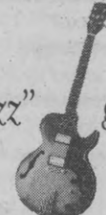

Drum kits and hardware, comprehensive range of gourmet drumsticks, custom pedals, hand hammered cymbals, assorted percussion –

cabasas,  flexitones, vibraslaps, ching chocks and guiros • Home studio equipment – cassette and  open-reel,

specially designed reference amplifiers and monitors, dynamic and condenser  microphones, top quality leads, patchbays and

connectors • Signal processing – compressors, limiters, graphic and parametric E.Q., reverbs, delay and modulation effects, exciters &

pitch-shifters • Keyboards  and modules, internal & external sequencing, midi patchbays, sequencing and

sample/edit software for all major platforms • Handcrafted full-acoustic guitars (steel & nylon string), semi acoustic "Jazz"  guitars,

mandolins, ukuleles and lap-steels, electric guitars fitted with a wide range of active & passive pickup configurations and top quality trem

systems including knife-edge and transposing • Imported basses  in 4, 5 & 6-string and fretless configurations, active/passive

circuitry, ergonomically designed for a wide variety of playing styles • Instrument amplification for practice, recording or stage, head/cabs

& combos,  valve & solid state, single, split & dual channel • Mixers & power amplifiers,  powered

mixers, power conditioners, high-efficiency speaker cabinets & cabling.
