CLASSIC KIWI REISSUES

Jayrem Records have reissued two compilations of classic NZ music plus complete albums by the **Breakaways** and **Thom Thumb**.

The collections are *Get The Picture 1964-72* (27 tracks) and *Out From The Cold 1964-72* (24 tracks). Artists featured include **Quincy Conserve**, **Bari & the Breakways** (includes **Midge Marsden**), **Top Shelf**, **Simple Image**, **Tommy Adderley**, **Pleasers**, **Roadrunners**, **Contacts**, **Dizzy Limits**, **Relics**, **Lost Souls**, **Supernatural Blues** band and many more.

The **Breakaways** CD contains both of their albums, 28 tracks total. The **New Plymouth** band featured **Midge Marsden** and **Mandrill Studios** co-founder, **Dave Hurley**.

The **Thom Thumb** compilation is *Ludgate Hill: The Singles: A & B Sides*.

Jim Moss is now living and basing his **Jayrem** label in **Ohope**. The postal address is **PO Box 3101, Ohope, Whakatane**.

Former **Tunnellers** vocalist **Ted Brown** has released his debut single on **Pagan**, 'Swerve' with a B-side 'Love Explodes' which has been covered by the **Straw People** on their forthcoming album.

MOUNTAIN ROCKS

The **Central North Island** one-day rock festival **Mountain Rock**, takes place again this **January 16th**, at **Airle Braes** sheep station, near **Ballaunce**, approach from the **Manawatu Gorge**.

Artists appearing this year include **Push Push**, **Muttonbirds**, **Shona Laing**, **Backdoor Blues Band**, **Jan Hellriegel**, **Dead Flowers**, **Shihad**, **Nine Livez**, **Southside of Bombay** and **Big Deal**.

Tickets are \$20 for pre-sales (at **Brash's** stores and **Kingsley Smith** Wellington) and \$25 at the gate.

Shihad have demoed their debut LP in a **Wellington warehouse** and are on the road early **December** with **Head Like A Hole** (see live music calendar page 43 for dates). **Shihad** will record in **Auckland** in **January** with **Jaz Coleman** producing.

FRENTE!

Forget the **Wham!** exclamation mark. **Frente!** are really **Australia's** answer to **Altered Images**. Lead singer **Angie** trills her way through the band's candy coloured videos in a voice so girly she makes **Claire Grogan** sound like a bag lady. The rest of the band cavort in the background playing air-instruments in suits to match the props in 'Accidentally Kelly Street'.

After releasing a five track EP which held the number one spot on the **Aria Independent Charts** for three months, **Frente!** recorded their debut album, produced by none other than **Michael Koppelman**, **Paisley Park's** resident engineer and the man responsible for **Prince's** *Diamonds and Pearls*.

As if that's not enough, **Frente!** are planning to take their nursery school pop to **England** next year following interest from **Go-Disc** records. Perhaps **Angie** will topple **Kylie** from her perch as **Britain's** Best Loved Pop Hampster.

"We all love **Kylie**," pipes the band's guitarist, "sometimes she's painfully honest. Even the really cool people love her here."

'Nuff said.
