adat 8 TRACK PROFESSIONAL DIGITAL AUDIO RECORDER

all that you've heard is true

The Alesis ADAT 8 Track Digital Audio Recorder and the ADAT System, consisting of multiple ADATs plus the BRC Remote Control, addresses the needs of musicians, producers and professional engineers who desire the highest standards of audio quality. The ADAT's high quality audio reproduction and low cost, make it perfect for applications in the home/project studio, commercial recording studios, video post production and broadcast production.

The key to the ADAT's creative options lies in combining multiple ADAT Recorders. Up to 16 ADAT recorders can be locked together with single sample accuracy using the ADAT's internal synchronisation system that functions independently from the audio tracks. That means you can build a multitrack recording system of up to 128 tracks total with virtually unlimited creative options for the production of music.

\$10,200 plus GST
