Dear little Louisa,

It is a dear little bag and a dear little photograph! When I saw the bag I said "This is for Peter Rabbit to carry his pocket handkerchief in!"

But when I looked at it carefully I said "it is a great deal too nice for Peter, and he would bite holes in it", as it seems to be made of flax or grass.

I shall keep it for myself & hang it up.

little brown book in my pocket, it will look very pretty against the dark cover. I have got a yellow hanging up and a pen in a little holder.

and some other photographs of little girls that I have never seen!

When they saw me photographs, I saw back a photograph of Peter or Benjamin - I don't write letters to all of them; but you look send a little dear and your mamma has sent me such a nice present, I am quite pleased.

I hope that you are very well and I remain with love to you all

Bertie Potter
