

GENERAL INDEX.

[The Editor will be obliged if authors and other users of the index will notify him of any errors or omissions discovered, or make any suggestions for improvements.]

- Acaena microphylla* × *Sanguisorbae*, hybrid (Ckn. & Allan), 21.
 — *Sanguisorbae* Vahl. var., Mayor Is. (Allan & D.), 36.
 — var. *pusilla*, Peel For. (Allan), 46, 49.
 — var. *sericea-nitens* Bitter, micro-species (Ckn. & Allan), 21.
 Acanthiidae. See Saldidae.
Acanthoceras discoidale Koss., comp. (Marshall), 186.
 — *newboldi* Koss., comp. (Marshall), 158.
 — var. *spinosa* Koss., comp. (Marshall), 158.
 — *pseudo-deverianum* Jimbo, comp. (Marshall), 186.
 — *rotomagense* var. *asiatica* Jimbo, comp. (Marshall), 158; descrip., 157.
 — *ultimum* n. sp., with pls. (Marshall), 158.
Acanthochaetes ovatus Hutton, syn., 585.
Acanthochiton fovearumensis n. sp., with pl. (Mestayer), 585.
 — var. *kirki* n. var., with pl. (Mestayer), 586.
 — *rubiginosus* (Hutton), syn., 585.
 Acarida, in forest-floor (Grimmett), 436, 437.
 accent, in names, and shifting of (Andersen), 673.
Aciphylla Colensoi Hook. f., Peel For. (Allan), 49, 50.
 — *Crosby-Smithii* Petrie, descrip. with pl. (Petrie), 13.
Acmaea albicostata (Angas), syn., 551.
 — *calamus* (C. & F.) var. *polyactina* Verco, syn., 567.
 — *campbelli* (Filhol), syn., 567.
 — *cantharus* (Reeve), syn., 570.
 — (not Reeve), syn., 558, 571.
 — *cingulata* Hutton, type of *Radiacmaea* (Oliver), 564; syn., 565.
 — *conoidea* (Q. & G.), syn., 560.
 — (not Q. & G.), syn., 577, 578, 579.
 — *corticata* Hutton, syn., 552.
 — *costata* (not Sowerby), syn., 551.
 — *crucis* Tenison-Woods, syn., 560.
 — *daedala* Suter, type of *Parvacmaea* (Oliver), 575; syn., 575.
 — var. *subtilis* Suter, syn., 575.
 — *elongata* (Q. & G.), syn., 573.
 — *flammea* (Q. & G.), syn., 558.
 — (not Q. & G.), syn., 560, 575.
 — *fragilis* (Chemnitz), syn., 582.
 — *gealei* (not Angas), syn., 556.
 — *helmsi* Smith, syn., 576.
 — *inradiata* (not Reeve), syn., 560.
 — *intermedia* Suter, syn., 566.
 — *jacksoniensis* (Reeve), syn., 561.
Acmaea jacksoniensis var. *mixta* (Reeve), syn., 560.
 — *lacunosa* (not Reeve), syn., 552.
 — *narmorata* Tenison-Woods, syn., 556.
 — var. *subnarmorata* Pilsbry, syn., 558.
 — *mixta* (not Reeve), syn., 558.
 — *mufria* Hedley, syn., 562.
 — *parviconoidea* Suter, type of *Conacmaea* (Oliver), 577; syn., 577.
 — var. *leucoma* Suter, syn., 576.
 — var. *nigrostella* Suter, syn., 577.
 — *patellavecta* Verco, syn., 550.
 — *petterdi* Tenison-Woods, syn., 574.
 — *pileopsis* (Q. & G.), syn., 569, 570.
 — *pseudocorticata* Iredale, syn., 554.
 — *punctata* (Q. & G.), syn., 566.
 — *roseoradiata* Suter, syn., 563.
 — *rubiginosa* (Hutton), syn., 565.
 — *rugosa* (Q. & G.), syn., 550.
 — *saccharina* (Linné), syn., 555.
 — var. *stellaris* (Q. & G.), syn., 555.
 — *scabrilirata* Angas, syn., 573.
 — *scapha* Suter, syn., 575.
 — *septiformis* (Q. & G.), syn., 572, 573, 576.
 — (not Q. & G.), syn., 571, 580.
 — *stella* subsp. *corticata* Hutton (Oliver), 552.
 — var. *pseudocorticata* Iredale, syn., 554.
 — *subvundulata* Angas, a doubtful species (Oliver), 573.
Acominia n. gen. (Finlay), 240.
 — *ridicula* n. sp., with pl. (Finlay), 244.
Actinoleuca, in key (Oliver), 549; charact., 567.
 — *calamus* (Crosse and Fischer), (Oliver), 567.
 — *campbelli* (Filhol), with fig. (Oliver), 567.
 — *multiradiatus* (Chapman and Gabriel), (Oliver), 568.
Adelomelon Cossman, type charact. (Marwick), 264; *Miomelon*, a section of, 265.
Adiantum hispidulum Swartz, Mayor Is. (Allan & D.), 35.
Admète cristata n. sp., with pl. (Marwick), 323.
Aestrelata lessoni Garnot, analysis of fat (Malcolm), 650.
Aethocola cliffonensis n. sp., with pl. (Marwick), 321; occ., 337.
 — *taiae* Marwick, occ., 353.
Agonochila binotata, in forest-floor (Grimmett), 435.
Agropyron scabrum Beauv., Peel For. (Allan), 43.
Agrostichthys parkeri (Benham), type of new genus (Phillips), 535.
Agrostis Billardieri R. Br., Mayor Is. (Allan & D.), 35.
 — *ypsilon* Rott., food of *Cermatulus nasalis* (Myers), 493.
 Ahmen, H. See Frosch, P., and Ahmen, H.

- Alcithoe* H. and A. Adams, charact. (Marwick), 260; synopsis, 287; classifn., 270. See also *Fulgoraria* (*Alcithoe*) and *Fulgoraria* (*Alcithoe*).
- *acuta* n. sp., with pl. (Marwick), 295; in synopsis, 287; range, 269.
- *angusta* (Suter), classifn. (Marwick), 265.
- *arabica* Martyn, with pl. (Marwick), 295; doubtful division, 294; in synopsis, 287; range, 269.
- *jaculoides* Powell, syn., 295.
- *arabica-swainsoni* group, difficulty of division (Marwick), 294.
- *arabacula* n. sp., with pl. (Marwick), 293; in synopsis, 287; range, 269.
- *armigera* n. sp., with pl. (Marwick), 290; in synopsis, 287; range, 269.
- *bathgatei* n. sp., with pl. (Finlay), 248; syn., 276.
- *brevis* n. sp., with pl. (Marwick), 299; in synopsis, 288; range, 269.
- *compressa* n. sp., with pl. (Marwick), 290; in synopsis, 287; range, 269.
- *corrugata* (Hutton), (Marwick), 299.
- *cylindrica* n. sp., with pl. (Marwick), 290; in synopsis, 287; range, 269.
- *depressa* (Suter), with pl. (Marwick), 296; in synopsis, 287; range, 269.
- *detrita* n. sp., with pl. (Marwick), 289; in synopsis, 288; range, 269.
- *dilatata* n. sp., with pl. (Marwick), 301; in synopsis, 288; range, 269.
- *dyscrita* n. sp., with pl. (Finlay), 249; syn., 276.
- *exigua* n. sp., with pl. (Marwick), 299; in synopsis, 288; range, 269.
- *familiaris* n. sp., with pl. (Marwick), 291; in synopsis, 287; range, 269.
- *finlayi* n. sp., with pl. (Marwick), 297; in synopsis, 288; range, 269.
- *gatesi* new name, with pl. (Marwick), 302; in synopsis, 288; range, 269.
- *gracilis* Swainson, with pl. (Marwick), 300; in synopsis, 288; range, 269; occ. (Thomson), 353.
- *haweraensis* n. sp., with pl. (Marwick), 302; in synopsis, 287; range, 269.
- *hedleyi* Murd. & Suter, with pl. (Marwick), 301; in synopsis, 288; range, 269.
- *haurupiensis* n. sp., with pl. (Marwick), 292; in synopsis, 287; range, 269.
- *irregularis* n. sp., with pl. (Marwick), 292; in synopsis, 288; range, 269.
- *jaculoides* Powell, with pl. (Marwick), 295; in synopsis, 287; range, 269.
- *larocheti* n. sp., with pl. (Marwick), 294; in synopsis, 287; range, 269.
- *lepida* n. sp., with pl. (Marwick), 296; in synopsis, 287; range, 269.
- *lutea* Marwick, with pl. (Marwick), 293; in synopsis, 288; range, 269; occ. (Thomson), 352.
- *mackayi* n. sp., with pl. (Marwick), 300; in synopsis, 288; range, 269.
- *morgani* (Marsh. & Murd.) occ., 333.
- *neglecta* n. sp., with pl. (Marwick), 298; in synopsis, 288; range, 269.
- Alcithoe nukumaruensis* (Marsh. and Murd.), with pl. (Marwick), 289; in synopsis, 288; range, 269; similarity to *A. detrita*, 294.
- *oliveri* n. sp., with pl. (Marwick), 295; in synopsis, 287; range, 269.
- *parva* n. sp., with pl. (Marwick), 301; in synopsis, 288; range, 269.
- *phymatias* n. sp., with pl. (Finlay), 248; syn., 276.
- *reflexa* n. sp., with pl. (Marwick), 296; in synopsis, 288; range, 269.
- *regularis* n. sp., with pl. (Finlay), 247; syn., 275.
- *residua* n. sp., with pl. (Finlay), 249.
- *Finlay*, with pl. (Marwick), 301; in synopsis, 287; range, 269.
- *robusta* n. sp., with pl. (Marwick), 291; in synopsis, 287; range, 269.
- *scopi* n. sp., with pl. (Marwick), 297; in synopsis, 288; range, 269.
- *sequax* n. sp., with pl. (Marwick), 291; in synopsis, 288; range, 269.
- *solida* n. sp. with pl. (Marwick), 298; in synopsis, 288; range, 269.
- *subgracilis* n. sp., with pl. (Marwick), 300; in synopsis, 288; range, 269.
- *swainsoni* n. sp., with pl. (Marwick), 294; apices of shell, fig. 261; in synopsis, 287; range, 269.
- *transformis* n. sp., with pl. (Marwick), 293; in synopsis, 287; range, 269.
- *turrita* (Suter), with pl. (Marwick), 288; in synopsis, 288; range, 269; confusion with *A. detrita*, 289.
- *wekaensis* n. sp., with pl. (Marwick), 288; in synopsis, 288; range, 269.
- *whakinoensis* n. sp., with pl. (Marwick), 302; in synopsis, 288; range, 269.
- Alethopteris*, occ. (Marshall), 210.
- Aletra parmata* n. sp. (Philpott), 387.

Ammophila arenaria (L.) Link., host of *Megaloceroea reuteriana* (Myers), 470.
Amoria Gray, type charact. (Marwick), 264; not a N.Z. shell, 265.
Ampehsca, food of *Chelidonicichthys kumu* (Phillipps), 527.
 — *eschrichtii* and *A. macrocephala*, occ. of similar forms (Chilton), 513.
Amphidesma subtriangulatum (Wood), occ., 333.
 Amphipoda, N.Z. (Chilton), 512.
 Amiri limestone and Weka Pass stone, contact (Thomson), 354.
Anachis pisanopsis (Hutt.), occ., 352, 353.
Anagallis arvensis Linn. Mayor Is. (Allan & D.), 35.
 analyses—
 artesian water, Christchurch (Hilgendorf), 381.
 Green Isles aplite, diorite, and granite (Park), 386.
 red cod, food value (Carter & Malcolm), 648
 soils from Rotorua County (Aston), 737.
 wheat, for flour-product. (Foster), 741–42.
Ancilla cf. *australis* (Sowb.), occ., 333.
 — *crystallina* n. sp., with pl. (Brookes), 589.
 — cf. *hebera*, occ., 334.
 — *morgani* n. sp., with pl. (Allan), 342.
 — (*Baryspira*) *subhebera* n. sp., with pl. (Marwick), 323.
 — *virangiensis* n. sp., with pl. (Marwick), 324.
Ancistrogyrinæ n. sp. Suter, is *Parasyrinæ finlayi*, 344.
 Andersen, J. C., publication committee's report, 755.
Aneurus browni (F. B. W.), with pl. and fig., life-hist. (Myers), 488.
Angelica montana (Forst.) Cockayne, Peel For. (Allan), 43, 47; host of *Nysius* (Myers), 481.
 angiosperms, N.Z. (Oliver), 1.
 animal-life in forest-floor (Grimmett), 423.
Anasops assimilis F. B. W., life-history (Myers), 468.
 — *wakefeldi* F. B. W., life-history (Myers), 468.
Anisotome aromatica Hook. f., Peel For. (Allan), 49, 50.
 — var. *incisa* T. Kirk, Peel For. (Allan), 47, 50.
 annelid tubes, Rakaia Gorge dist. (Cox), 94.
Anomia trigonopsis Hutt., occ., 333, 334, 352, 353.
 — *undata* Hutt., occ., 351, 352.
Anopsobius neozelanicus, in forest-floor (Grimmett), 434.
 Anthocoridae, less than eight species (Myers), 451; details, 472.
Anthoxanthum odoratum L., host of *Cermatulus nasalis* (Myers), 493.
Antigona zelandica (Gray), occ., 352, 353.
Antimitra Iredale, genus of Iredale, (Finlay), 254.
 — *vexilliformis* Marsh. and Murd., type of *Vexithara* (Finlay), 255.
 ants, in forest-floor (Grimmett), 435, 437.
Aotea n. gen. (Phillipps), 533.
 — *acus* n. sp., with pl. (Phillipps), 534.
Apaturis Iredale, genus of Iredale, (Finlay), 254.
Aphaenogaster antarcticus, in forest-floor (Grimmett), 435.
Aphera scopalveus n. sp., with pl. (Finlay), 246.
Aphrodite, food of *Thyrsites atun* (Phillipps), 528.
Apium prostratum (DC.) Labill., Mayor Is. (Allan & D.) 36.
 aplite, Green Isles, analysis (Park), 386.
 Aradidae, numerous in species (Myers), 451, 486.
Aradus australis Erichs., hist. (Myers), 486.
Aralia sp., host of *Dactyanthus Taylori* (Hill), 89.
 Araneida, in forest-floor (Grimmett), 435, 437.
Araneus crassus, in forest-floor (Grimmett), 435.
 — *pustulosus* (Walck.), *Oncacotias vittatus* distasteful (Myers), 509.
Araucaria brasiliensis, resemb. to *Araucarites marshalli* (Edwards), 126.
 — *haastii* Etting., resemb. to *Araucarites marshalli* (Edwards), 126.
 — *rulei*, position of canals (Edwards), 127.
 araucarians of N.Z. (Edwards), 126.
Araucarioxylon. See *Dadoxylon (Araucarioxylon)*.
Araucarites carinaria, resemb. to *A. marshalli* (Edwards), 126.
 — *hatcheri* Wieland, resemb. to *A. marshalli* (Edwards), 126.
 — *marshalli* n. sp., with figs. (Edwards), 126.
 — *ovatus* Hollick, resemb. to *A. marshalli* (Edwards), 126.
