

FIG. 3.—L.S. of ovariole soon after formation of follicles.
 FIG. 4.—L.S. of margin of ovariole with late stage oocytes.
 FIG. 5.—Section of epithelial plug (above) and pedicel (below).

FIG. 6.—T.S. of wall of lateral oviduct.
 FIG. 7.—T.S. of wall of median oviduct.

FIG. 8.—Section of basal portion of spermatheca duct.
 FIG. 9.—Section of coiled portion of spermatheca duct.

co, connective tissue; *cu*, cuticular tube; *e*, epithelial plug; *ep*, epithelial sheath; *et*, epithelium; *fa*, fat body; *fl*, follicle wall; *i*, interfollicular tissue; *in*, intima; *mu*, muscle sheath; *n*, nurse cell; *nu*, nucleolus; *o*, oocyte; *pd*, pedicel wall; *pr*, precursor bodies; *q*, quiescent spermatozoa; *to*, trophocyte pore; *y*, yolk granules. Scale lines represent 0.1 mm.
