

WE KEEP ON GROWING

We have the right kind of climate, adequate soil conditions and the silvicultural expertise to grow forests, mainly temperate zone softwoods, to mature within three decades.

We have proved that we have the technological know-how to produce from our trees high quality manufactured items such as plywood, panelboards, woodpulp, paper and a variety of products to the best of world standards.

Apart from export markets already

established for forestry products, mainly in the Pacific and Indian Ocean areas, there are many more potential customers in the developed and developing nations of Asia, Africa, Europe, and the Americas.

When you think of some of the world's notable natural resources - oil, coal, gold, copper, timber - remember timber is the one that keeps on growing!

Keep in touch with New Zealand's major integrated forestry company.
