### Sow Simmonds,' Ld. Tested Seeds.

“AS YOU SOW: SO YOU REAP.”

The truth of this statement is well-known, and to that end we have tried to procure nothing but the very best, that our clients may rest assured when they have sown our **Selected Seeds**, under ordinary circumstances, they will receive as a reward of their labours a good crop, producing a handsome return for their outlay.

Our contention is—That cheap seed is dear.    Our aim is—To supply only the best at a moderate figure.  
Our request is—Give us a trial and let us prove to you that what we claim is correct.
