

**TOTAL ABSTINENCE**

**John. Q. Schisler** says, "We can never win the fight against alcohol by diversionary movements. Let us join the issue where it is—namely, at the point of total abstinence.

"To win, it will take unusual resources in intelligence, courage, stamina, and sacrifice. I believe a sufficient number of the young adults in our Protestant churches are in possession of such resources. If the Church really cares about the future well-being of humanity it will encourage these young adults to pursue this objective with vigour and persistence. Beginning by pledging themselves and their homes, they can, with the help of God, win the fight on the one front where it must be won—TOTAL ABSTINENCE."
