PARDON Mr. Editor. This is Snooper Нарру To my"Sunshine" Christmas and lively

#### FOR YOU.

is a time of CHRISTMAS good cheer which will not be wanting on this occas-ion .::: WE know that you will enjoy yourselves:we know that we shall too. It would be hypercritical of, us to say or think otherwise. Ot: BUT that does not mean that we -or you - will have that joyso difficult for words to describe - that we would have together. We know have together. We know it. ::: AND we have learnt that it is only when we are together that Christmas, like all other things we walue, mean most. Some of us learnt that in cam's clsewhere. Some of us are learning it for the first time. But there is rot one of us who will not be thinking of you and for you on Christmas Eve.

11 11 11 11 11 11 11 11 11 11

TO COL. A . MURRAY and members of 3rd. Div. Engineors we send our sincere good wishes over the Xmas season and wish them the speedy realisation of their hopes for 1944.

DOZERDUST extends the New Year - 1944, I mean . Seagen's Greetings to Lt-Scaren's Greetings to Lt- many thanks. 1944 will Col. H.H. Wood, his Officers find DOZERDUST still and staff.

PASSED BY THE BASE HOPE. CENSOR - WE

Dozerdust extends to Major B M. West, his Officers and staff the Season's Greetings and best wishes for the New Year.

TO Captain. F.J. Clark Licut. Wright and members of Wharf Operating Coy. we send our Best Wishes over the Emas and New Year Greetings.

11 11 11 11 11 11 11 11 11 11 11 11

Go thou thy way and I Go ming. Apart yet not afar. Only a thin veil hangs between The pathways where we are. And God keep watch C'er thee and me. This is my prayer. He looks thy way Ho looketh mine

And keeps us near.

TO the " bays " of the WORKS DOZERDUST wishes all the best may beat one BIG WISH come true very scone For the co-operation in the past months gossiping. HD.

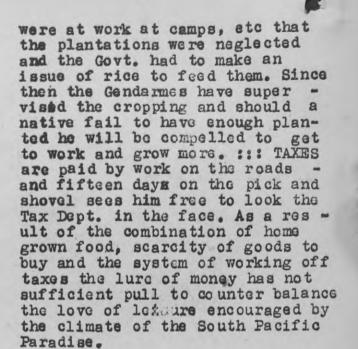

# THE KANAKA OF NECAL.

(By Cpl. E. Knowling) THE natives of this island are mainly of Melamesian origin being characterised by their dark skins and chunky build. They are called Canaques by the French but to their faces they prefer to be known as Indigenes ( Natives ) or by the more colloqueal French term of garcon (boy). The language barrier prevents us from getting to know them well, and there seems to be little authorite ve information available, the French do not appear to encou rage any pride in race or traditi⇒ on. ::: THE tribal set up appears to be that of a loose confeder ation of sub-tribes under a paramount district chief, the 'Grand Chef! Each sub-tribe has its own chief and his authority apparently depends largely on his personal ity, as in some cases discipline within the tribe is good. In many cases the minor chiefs are quite young men, and a considerable amount of control is exercised thorugh the heads of families who are consulted in matters of tribal policy. In only one case have come in sontact with any suggestion of taboo and in this case native man and woman were walking along the road towards a 'Grand Chief'; the man continued and met the chief and, as is usual, went through the routine of hand shaking and cheek kissing. The woman, however, sat down with her face averted some hundred yards away. It seemed that she must not pass in front of a chief. If con tact is unavoidable the woman must turn her back and not look the chief's facc .. There must be ex ceptions to this rule, maybe it only applies to strangers for most of the chiefs I have met have been blessed by more than one offspring .::: THE Kanaka attitude to work is typically native; interested he will work well in short bursts, but continuous routine work does not attract him at all. When employed by the Army he is paid about fifty cents a day and as there is little available for him to buy, the money is lit-tle incentive. His food is home grown in his plantations which may be near his home or else miles away in the hills; he is mainly vegetatian in diet and his only

local food purche se is bread, which costs him the equivalent of six -

pence a loaf. In the earlier stages of the war when invasion

seemed imminent so many natives

#### OUR CONTRIBUTORS.

cPL. Ted Knowling - One time respected Auckland accountant, now something of a financial vagrant who is nipped between pay days when not scrounging pay books between pays. Speaks French like a Kanaka, acts as interperter and paymaster in Unit native affairs.

POETESS R.H. Williams of the Waacery, christened H.R. and known by such until she contributed to Dozerdust when R.H. replaced original. A keen Aucklander she favours Tunnel scheme in place of Bridge proposal. A mainstay of J.R. McKenzies she thinks firm may be bit wobbly in her absence. Adores Clarke Gable.

where but in jail - that doesn't mean he wont. Is too busy writing poems to read poets. Hobby- opening Bluff oysters. By adeption belongs to Wellington which he poetically describes in an epic poem as the "Belchy City".

"CURLY " Griffin our Wharf contributor. A city boy who now chews grass as a probationary period to chewing Spark Plug tobacco. Is chief librarian to Wharf - deplores absence of highbrow literature, says his readers will look at nothing lower than Shakspeare.

SNOOPER - mystery character of the Pacific; thought to have had a good education in most third rate ports. Attached himself to Dozordust and adopted Works for duration. Spends most of his time spying on lads.

(Cont. page7 |

WHIN you meet a man with a twinkle in his eye you are at once disarmed by his warm sense of humour, as we were when Col. J. I. Twhigg D.S.O. con sented to sit for Dozerdust. Our hut was in a jumble, the box on which we had to ask him " take a seat " had lost the streng to of youth. " How creaking of the box. The question soon settled he told us to " fire " ahead which we did. :: IT was not long before he had our undivided attention. Speaking quietly, he gate the impression of a man who possesses a cralities. This chables him to get to the vital and urgent essentials of a problem; with a firm and clear judgement he sees what is required to the work. He can and does appreciate the trappings, but first things is interested in his work not from the narrow self-interested view, but malarial fever showed that he possesses the thoroughness of the scholar whe from the drive of the work itself. A short discussion on the question of and the tenacity of the bulldog. To that let us add the warm understanding the tribute he paid to those under him when he said " they worked hard " tain types of work entailed.:: The box lasted the distance and, on lookeing over the rough copy of the sketch, he gave a smile and said " a little unkind perhaps " but he can take it.

### QUESTIONS AT EVENTIDE.

What can you wear tonight,
Oh, lovely lady,
Half so becoming as the mamory
Which robes you in a gown of sweet carressing,
And takes me home
So ffar across the sea?

What can you do tonight,
Oh, lovely lady,
Half so inspiring as of yesterday
The deeds that formed my love and keeps me near you
Though war must place you many miles away?

What can you see tonight,
Oh, lovely lady,
Half so delightful as the scene I keep
Enshrined within the gold of recollection
- Portrays your smile
When faith and cheer I seek?

What can they say tonight,
Oh, lovely lady,
Half so endearing as the humblest tone
In which, upon the nights' still air arises
My fervent whisper
"Darling, I am HOME"
R. H. Williams.

### THE GYPSIMS.

Now we hell up and down this damned over, Thru the dust and the rain and the heat, And we always break camp on a Sunday, Like the "Sallys" that pray in the street.

We mean and we snarl and we bicker, Like hobbe, we've no fixed abode, Our tents they are almost in tatters, While our gear leaves a trail on the road.

And our beer is always short-rationed, What we thieve on the ships is a crime, We're " Foster's " bad boys, that's what we are, Yes, they give us a bloody rough time,

I believe we're the bums of Necal !,
The gypsies, the "Knights of the Winch ",
"Hard cases " and " boozers" and gamblers,
Etill we're useful and sharp in a pinch,

Our Screents all love us, we know,
And the OU thinks we're the catswhiskers,
I once heard him tell " Westy " so.

Now I give you a toast to the "Wharfies", The "Sundowners of the Third Div.", The "Gypsy Boys" of the Pacific, Where there's "Janna sausage they live.

Spr. F. A. Hirtzell.

# PACIFIC IMPACTS.

CHANGING KIWIS.

(By "Curly" Griffin)

"WE are looking to the Wharf Oper ating Coy. to supply am article for our Christmas issue - say we make Dec. 7th. the deadline " That was the first intimation that we had to supply an article and that had to write it. I protested in -vain. Dozordust usually gots what it wants. So you will gather that this introductory chapter is a further protest and an apology to the reader which should throw all the blame where it belongs - to the Editor. ::: HE usually gets the articles which goes to show that I in common with most other members of the Unit have devel oped more self confidence than we
possed on our arrival. And I think
this is true of most Kiwis in the Pacific. We have been called upon to turn our hand to many differing jobs, thrown upon our own resources and toughened by military training that we are much more sure of ourselves than we were twolve months ago. Chaps like Sgt. Wally Hobson ( spare me Sarge ) and Hec Mulholland ( no relation to the Farmers Union ) who spent most of their time behind shop counters have added not only to their vocabulary ( a considerable addition, I might add ) but also to what happons in the open spaces. Nod Sains-bury Will be a different type of bank clerk on his return and Civil Servants such as "Short- Haired" Richmond and myself will find the Dopt. irksomo. ::: ALL of us have been accustomed for so long to Army discipline that on our discharge we will not know what to do with our freedom. We will want to use it for the sheer pleasure of telling the boss where he gots off. And dont think we will worry very we have learnt that the conventional ties of the suburb are not the boginning and end of everything as we once did. ::: WE have also learnt that N.Z. is much smaller than
we once thought it. In the past it
was the centre of the Pacific -there were other islands, but they were just names on the map, not very important, They are still un-important, but they have reduced N.Z. in perspective. The domestim questions we looked upon as so vital no longer soem so: we sense that we are almost as negligible in world affairs as the Kanakas who shuffle along the roads.

This is emphasised, I think, by our meeting soudiers of Allied
Services many of whom too, are cocksureof their nation's greatness.
This opportunity to compare our life with that of other men makes ours stand out by comparison; get a kiwi hot under the collar and you will seen find that all kiwis are linked by a powerful and characteristic language; you will find he has all the parochial loyalty of the family, the conviction that he can do anything as well as if not better than most men of any country. And surprising enough, he justifies the claim. He doesn't talk very much about what he can do, or who he is: he foce the job and takes for granted that he should be able to:::FINALLY, there is this I've learnt: the Kiwi is a matter of fact kind of guy with the girls. If she does not like him, he looses no sleep; if she does he compliments her on her common sense.

...........

#### SOUTH PACIFIC BOXING.

#### NEW ZEALAND ARTA FINALS.

THE OUTSTANDING BOXER OF THE EVENING WAS W. B. NEWTON, 1471b, WHO
FOUGHT WILLIAMS A COLOURED BOY.
NEWTON FOUGHT A COOL, HEADY AND
SCIENTIFIC BATTLE AGAINST A FAST,
FIT AND VOGOROUS FIGHTER WHO AT
NO STAGE HAD THE MEASURE OF NEWTON.

A Wellingtonian who had his in itial training at St. Pats and has not had more than half a dozen ring appearances to his credit W. Newton was both unlucky and unfortunate. Unluckyin in that he lost by a narrow margin in the last round in a battle in which he was master all the way. Unfortunate in that he had injured his arm earlier in the week, which told on him at the close of the fight and he, to a greater extent shan Billy Brown, suffered from the local climate. He lost fully ten pounds in the short time he had been on the Island. ::: TRY as he might Williams could not lure Newton into a mix up; this was a type of fighting that Williams had not met before. He lcd with his left and horked the fight only to find a snappy left knocking his head back. He fough well in a close rally at end of round when he connected with jabs to the body. ::: AT the opening of the second round it was obvious Williams ( cont. page IO col I.)

## YOU'VE GOTTA BE GOOD.

A red blooded tale of modern times written specially for Dozerdust by SNOCPER.ED.

# THE CAST IN ORDER OF APPEARANCE.

Dad Heffadust.....A Cock / Eliza """""".....His Wife.
Simon Deeds......A rascal lawyer.
Flossie Heffadust.. Their daughter.

The scene is of a poorly furnished farm kitchen. The only furniture is an old table bearing the remains of the evening meal; and two nd at three delapidated chairs. On the wall is a Loan & Mercantilo, and a photogravure of Phar Lap. A faded patch over the mantel picce was where Uncle Scrim had the place of honour, but his photo has been taken down.

When the curtain rises Dad is sitting at the table filling his pipe and Eliza is busy at the stove.

- ELIZA : Did you get that fencin' finished ?.
- DAD : Yes. Them damn cows o' Scotts can find their own feed termorrer.
- ELIZA: Well, that's a good job.
- DAD: Yos. It was worsen I thought. By gee, with all these repairs we wont make much outer the farm this year. This game has gone to hell once the Gove. got in again.
- ELIZA: Woll, never mind. We can save a bit by puttin' in for this Army labour. An we've saved up the mortage money so the place will be freehold anway. Wonder Deeds hasn't been over; it was due today.
- DAD : (Uncomfortably) Well we would 'ave been able to but I did most of it in on Gladynev at the Cup.
- ELIZA: (Furiously- she turns and faces him) Why you poor cockeyed little squirt...What the hell are we going to do now?
- DAD: Dont go me El. I did it all for the best. If things 'ad gorn right we would of been able to buy them lambs from the new chap down the road what had his appeal dismissed.
- ELIZA: Dont give me that lamb stuff. You orter ---- ( There is a knock at the door and Simon Deeds comes in. He is a tall lean bird who should have been in the Army but got out on a Public Interest appeal)
- DEEDS: Well, you know what I've come for.
- DAD: Er yes. We was wonderin' if you might care to extend it fer a month or two. With the Govt. callin' for more production it seems everybody's duty to grow more wool an' --
- DETEDS: So you can pull it over my eyes, eh. Everybody knows that that production stuff is just a good stunt to appeal on.
- DAD : But Mr. Deeds ----
- DEEDS: Dont Mr. Deeds me. You know the terms. Money up or fore-

# YOU'VE GOTTA BE GOOD (cont from page 6.)

She is pretty in a vacant sort of way, but has an AI. figure like the blonde down the street back home that you used to watch and undress with your eyes when the wife wasn't looking.

Why Flossic ! What ever are you doing down here ? ELIZA :

I'm on vacation. The Lootenant said I could have a coupla ELOSSIE:

days off.

The Lootenant? What Lootenant? Dont you work for the BLIZA

Farmers any more ?

(Scornfully) The Farmers ! I gota real job now. My boy friend got me a job with the Yanks. Levely place it is too. A big sort of pink building down by the harbour. FIOSSIE!

Your boy friend, I didn't know you had a boy friend. ELIZA

Yes. He's a thrill too. He's a marine. Flossies

Is he one of the fellers what always has everything in hand? DAD

Shut up Dad. ( To Floss) Is he going to marry you? ELIZA

(Regretfully) Everything's on a lease-lend basis at present. FLOSSIE:

(She changes the subject hurriedly ) What's Deeds doing

I've come for the mortage money and as your dear parents DEEDS

cant pay up, you'll have to get out in the morning.

How much is it ? FLOSSIE:

Dad

Five hundred. Eliza

Deeds

Well if that's all ( Sho lifts up her skirt and extracts FLOSSIE: a roll from the leg of her knickers. No brother, she ds'nt wearing scanties. It's still chilly down in little oldN.Z.)

Five hundred ! Where did you get five hundred ? DAD

(Brokenly) Oh Flossie! I hope you've been good agirl. ELIZA

Let me tell you that to earn five hundred in the city

you've got to be damn good.

# QUICK CUR

SPR.F.A. Hirtzell Whary Coy's. wan-dering poot whose chief hobby is talking - mainly about himself. Drives a jeep with a sang-froid that warns passengers never to travel twice with him. Considers is unfortunate that Mu Z. should be attached to Auckland.

LOWDOWN - Reputed to be full brother to Snooper. Educated at Oxford, allowed £500 a year by family lawyers to provide bread and butter, has to find jam for him - self. Has specialised in Colonial Affairs. Secretly adored by Snooper

who refers to him as a " guy that gets around " Dozerdust present first of a series of specially written articles. World copyright reserved. No part may be used for broadcast, publication, or quotation by publicists or politicians without written authority.

OUR apology to Jack Fingland; we had to with hold article. Will use it next Christmas number.

UNCLE MOONSHINE -one time racing announcer. Now talks to himslef. Gets very argumentative at times.

### GONOPHONE NEWS.

WEEK by week the Gonophone News Service brings you the latest rumour gleaned from sources that are " in the know ". No incident too small to be significant, none too big but our credulity will swallow it. Moreover, Gonophone News has one characteristic that no other News Agency in the world can offer. Associated Press may boast of the number of foreign correspondents on it's payroll; Reuters, that it transmits news from the ears and eyes of the globe faster than any other agency; and Deutsches Nachrichen Buro may work overtime keeping up Gabbling Goebbles. But only the Gonophone News brings you what you want to hear and believe; it brings it in tabloid form and can be grapevined through the Unit in a matte er of minutes.... and give the bearer high honour, ::: THIS week our service started off with the startling announcement that Works would be home for Christmas and to expedite the transfer the OC was leaving for N.Z. on Dec. 18th. In the words of Basil Murgatroyd that was a " whopcacker ! It was followed by the purely domestia fatality that Licut. Tremain had lost the power of hearing in both ears. The news had literally dearened him. Then came the incident of the pants. Spr. Jack Gibbs found the scat of his trousers unbecoming for a Sapper of the Services Sec - tion so he approached Lieut. Torris for authority to obtain another pair. Jack was told that " it was not worth while" his getting another pair. " Not worth while!"... .... that could mean only one thingwe wore going home scener than we thought. With excitement thus whipped up there came the flash from high up ? A batman had told some one who told some one clso who told another who told our barber that "New Zealanders were passing out of American commant" on Jan, 7th That the 3rd. Div. would be replaced by British troops and that we would seon be on our way home. And as
the week closed, comfort, if not
certainty was dispensed by the information that the Unit was to be
medically examined, graded two and
head for home soon after. Thus ends
the describer were sorrise for the the Genephone News Service for the waek.

OUR THANKS TO GEORGE KING, JIM CRAIG, CHARLIE HYE, E.D. CLARK AND TOM YUILL. TOM CAME IN AT THE KILL AND TOOK OVER THE PTINTING AND MADE A GOOD JOB. TO HIGH CLASS BABTRING HE ADDS JOB OF PRINTER FOR DOZERDUST. ED.

SAY, ever see a knife thrower try to stick the but end of a knife into a tree from six feet. Cant be done ! Course it can. Bill Charleton did it. The tree was almost botten an' he meant the sharp point to go in - he was givin' a demonstration - you know what Bill's like. But you wanta see him on parado - yes sir, no sir. ::: DIDN'T see much of no sir. ::: DIDN'I see much of Lieut. Gilmour when I was up in the camp. Thought I'd get out in the jeep with him same as last time. He didn't go, but I got out with Lieut. Scott. Went to on Depot and saw Hrm. Newman in sharts and straw het = glad he had the hat on - lots of Waacs about there I hear, but didn't see any. What ya think. I heard Lieut. Scott was goin to the Ice Cream factory in the afternoon, so I hoofed to the jeep and hid under papers in the back seat. Pretty good factory I guess. When Lieut. Scott and blokes went into effice, I who oped over to shurn affeir an' hung on handle churn affair an' hung on handle with me mouth under the tap. Tried to sneak a five pound block of frozen eream - but I aint up to the Wharf standard - yet. Got back to camp and had a look at the boat we heard so much about. She was a who peacker. Painted white and about Solve put her in river to have seems fill up, then the motor was goin' in. But a big flood came upcarried boat away and thumped her bottom. Wish Editor would print what boys said. Be Williscroft was goin' to take his Javaneso girls out for a ride. girls out for a ride. ::: IN the morning I tore over to Tech. Store to see Lieut. Brooker's new office. Flash pessie, too. Heard him say to a bloke who just went in." Sit down for a minute - ah, sorry, the visitors chair is out at the moment ! I got under Arthur Burge's
chair, but he's got so fat I moved.
The chair cant stand strain for
ever. ::: HAD a great night at
the boxing on Sat. night. Guess
that boy Newton was good. Only one
that looked he wasn't scared of the coloured boy. I hollored like hell in last round when Newton had the other fellow on the ropes. (Cent. col. 2 page 9)

# " WHIRE THE PLAY IS NOW !

( Writtn specially for Dozerdust By, LOWDOWN.)

WHAT'S all this talk about who started butter rationing. I star = ted it myself. ::: IT was just after I cleaned up that Rotorum business and got the lowdown on that crook sleuth that the big shots had appointed to track down the crooks who claimed they were going to assassinate Bob and Dan. going to assassinate Bob and Dah.

::: THEY were all pretty grateful
over that show and wanted to put
me in the Upper House, but I wasn't
interested. I think I could even
have been a light Sed. if I had
wanted, but as I told them, I only
wanted to do another job to rotate
my adopted country. ::: THEY all
came crowding round me when I got
that one off my chest and patted that one off my chest and patted me on the back, and Paddy said he would be prepared to take his Mat off to me anytime. I know were with me then .::: WELL the upshot was that we had a conference. Walter wanted me to take on a tour to soll Rohabilitation and Housing to the country, but I didn't go much on the idea. I pointed out that the great mass of voters is like a horse and can only think of one thing at a time. What was wanted was something to really rotate the public and then Walter could please himself about Housing and all that while the public was too mad to notice .:: THERE were several ideas put up. Coal rationing, Lower Rents, Beer Tax, Tota Tax, but they all seemed to affect somebody present so they weren't well received. ::: I let them all talk for awhile then I sprung it Butter Rationing. They on them. didn't think much of the idea at first till I pointed out that it rotated everybody - women, kids and all. Paddy thought there would be some opposition from the big unions and I agroed, but I pointed out that when they started to squeal he could always come out with the usual linc that they had no intention of being stampeded by anybody and, anyway, the question was still under review. :: I pointed out too, that they could easily take butter away from the Army as the soldiers had more than they knew what to do with. I told thom it was the usual thing for soldiers to open a large tin, dig their knife in just once and then throw the rest away. It was woong, I said, for more soldiers to get as much butter as wharfies, jeckeys and other shock troops of the war effort when the said soldiers had

M & V and Cration biscuts to make on. They heartily agreed with this view rever having been soldiers themselves. The AND as Gordon Hutter says from I YA = " That's where the party is now "

AND there it stands in pride of
place

HEAPED together case on case, ----Glorious! M & V.

# SNOOPINGS. (cont)

Hoard Tom Hoeny say this country aint too good for trainin' in - too hot and muggy. That little fella Brown put up a great fight too - was too heady for his opponent, an' I saw a Yank had him a wad after the fight. Nearly had one myself when a guy put his fut on me. Wonder if I could get a Kiwi hat. Say, ask Jimmy Woods how he liked bein' nursed on way home from boxing. What ya think, me photo's gone to N.Z. - the Editor sent it to Jim Sommerville. Heard Percy Kenna tellin the Editor "Jim was a good fella and would see a good job was made "Only gota get a girl now and I'll nearly be respectable. See Lowdodn's article. Smart guy that brother of mine. Told him to look up Jim Blair and boys up north when he goes. I'll be watchin' a

(By Uncle Moonshine)

HELIO boys and girls. I am speak-ing to you all the way from New Cale-donia which is far across the sea from where you cyny with Now that the time has come to hang up your stocking you will be thinking of your Daddy and what you would give him for a present were he at home. :::THIS is the first time I have scon Army Engineers and they are so different from what I thought they were like. When we think of Engineers we always think of railways engines, and big ships. But your Dad is different. Let me tell you about him. He is called a Sapper and semetimes he drives a few engines - old ones drives a few that nobody clse wants, and he would dearly love to drive a big ship especially if it were sailing to New Zealand. He can do many other things as well. He is found of making toys. Every now and again he gots some old iron, bits of wire and things like that and makes himself a new toy, and then your Dad and all other men gather round and admire it. One of these toys is a ship called H.M.S. NEVERFAIL, but it sails best on land. They had another ship too which was called Charloten's Fride, but a wicked fairy knocked a hale in it and it sank. Their best toy is called Abercus. It is the biggest toy in New Caledonia; when it moved through the countryside all the poopthrough the countryside all the pcople. bowed before it. Some nasty minded folk said that they were doubled up with laughter; but that boys and girls is quito untruc.:::AND now let me toll you of a droadful " no, dar-ling old horse they have which is called "Plonk". & overheard an officer say that no self-respecting horse thiof would be seen dead with Plonk which shows what nice kind man your Dad is. They all saved up and bought shoes for Plonk and the cooks gave up their spare time so that they could shee him. And they all the picces gathered up of breadto feed the old fellow as he has no teeth; they are having a special saddle made with an upholstored scat so that they may go for a ride and not have to visist the hospital next day. Some time ago a jealous fairy asked your Dad to
give up Plonk, but he didn't want to
so the wicked fairy said that your
ned would either have to give up
Plonk or his children. Dad offered
her all his worldy goods instead, but
the wicked fairy didn't want them, so
he told your Dad where he could
not them. Where do you think that put them. Where do you think that was, boys and girls. You'll never guess. Write & ask Daddy same time

was puzzled; he was not getting h home with his punches. Newton had him measured and was jabbing a left with a good right following. Back moves and side slides were used for the first time of the tournament and half the bouts over. :: WITH the opening of the third round Newton met Williams on his wn ground and after a fast and two handed battlo Williams cover in a smother. He caught Newton a chip with a rangy right ho tricd hard to land from the start, but his timing was spoilt by speed. Newton drove in a solid loft, Will-ams taking it on the chin came back with a right to the body. They stood too to too. Newton weakened. As Williams came on him to press home the advantage, Newton reserted to a weave which took the sting out of the punches. It was the best round ofthe evening and a splendid bout. THE bout by two on Bill Brown . . . 135 lb. and Joe Rodwiquez 134 lb. registered a win for Billy Brown. Billy, an Invorcargill lad, noeds no build up. Rodriquez took the aggres-sive in the opening round and landed some telling hooks . Brown lan-dod with a good loft. There was little infighting, both lads broak-ing clean, The second round found Brown still on the defense and unable to penetrate Rodriquez's aggrossive forcing, His puonhes lacked force. This round was about even. With the opening of the third round Brown had the measure of his man; feinging with his left, Rodriquez was trapped into leading while a fast back move brought Brown in with fast lets and rights that steadied Rodriquez. From early in the round Brown took the lead and went on to win a good fight. :: tournament was N. Zors use of the straight left, wider knowledge of ring craft and sound defence. The erican lads tended to depend upen aggression, hooks and speed. Of was a model of good sportsmanship. area captured six bouts from the team from N.Z. Q:: THE finals which will be fought in a for ward area are to take place shortly. The team from this area should put up a good showing pro viding the climate does set prove too enervating.
