VOL. 2. NO. 4.

WORKS SERVICE ENGINEERS.

JAN. 15. 1944.

" THE SOUTH SEAS "

SNOOPER SAYS-"when going on leave to Noumea leave your false teeth in Orderly Room."

"Bitchy" - A new word that has come into use the last few weeks.

" SEX takes a holiday with me " - says Hamilton Maxwell.

WE hear that Tony greatly enjoyed his trip to Tio - for days afterwards he was talking of it.

SAPPERS who have difficulty in spelling are advised that Spr. J.G. Nicholas is prepared to help them out. Spelling his hobby.

IMPORTANT STATEMENT.

PRESIDENT " IKE " Smith, of Vitamin D. Company says:- I face coming year with calm and the firm convictions that business in the future will be stable and progressive. I cannot say what the immediate plans of my Company are - the loss of our Directors (see page 2)

" **THOSE** who live comfortably around Pacific shores can no longer afford to ignore the problems of their island neighbours ", partly because this war has revealed how important the Pacific Islands are in world strategy, partly because the islands are a source of great mineral and other wealth - New Guinea, one of the world's greatest oil reservoirs - and partly because the pre-war organisation of Pacific Islands in a crazy quilt of Mandates, Condominium and Establishments is now a thing of the past.::: WHAT the post-war settlement will be it is not our business to enquire, but whatever the settlement, it is our business to familiarise ourselves with the islands and the people who constitute our "neighbours" IT no doubt comes as a surprise that our "neighbours" take in about one eighth of the world's surface; that the archipelagos and islands within it have a combined area of about 319,000 square miles - almost twice the size of pre-war France, and three times the size of Japan proper. The total population is near 2½ million. ::: THEY were grouped into eighteen separate jurisdictions

under the sovereignty of eight different nations, Australia, Chile, France, Great Britain, Holland, Japan, New Zealand & the United States. This crazy quilt pattern no doubt "worked" while the attention of world powers was focused on domestic and European problems. But the Pacific - our "neighbours" have come to stay.

" I don't want riches,
I don't want wealth,
I'll be content,
When I get my teeth
back

"Bluey" P's
song

" Kanaka " Jewellers, Brownlee and Macale, respectfully advise all patrons that owing to pressure of work no further orders can be taken until Christmas.

THIS IS NOT A "HOMER"

GONOPHONE NEWS."Pink House" To Close.

GONOPHONE NEWS made Sappers uneasy last week when the news was flashed that the Unit was to break up - at any minute and most of personnel to "go North". From almost every quarter came the surreptitious query "what do you know?" The special release was that Capt. Boyd had the Embarkation Roll - he had it alright - he was soon working on it. Besides did not Maj. S. West, D.C.R.E., pay flying visits to camp at the time, and was he not followed by Brigadier Dove. "They wouldn't be here for nothing." :::: THEN came the assertion that the British Navy was to take over the Hospital. On top of that was the belief that the Con. Depot. had been knocked on the head - and when the OC announced a six day week for some time that was the full stop to the writing on the wall. "We'll all be North now!" Had not Joe Andrews, Jack Telford, Percy Willis, Norm Pitt, Art Carey, been transferred? The cheery optimism of New Year's Eve that we would be home before the end of 44 began to fade and everyone saw themselves in Bahaul by Easter. :::: BUT that was stilled when it was learnt that Easter Eggs were being made in N.Z. and on them was "Welcome Home 3rd Div." :::: IT IS RELIABLY stated that the "Pink House" is to close - it being almost closed now, there being only two beauties on the job. For the benefit of all Sappers Gonophone News reveals that the new "Pink House", which is situated close to N.Z? Transit Camp, is nearing completion; it is built along modern lines, with hot and cold showers, reading lounge and writing room where one may write to "Mum", and will be fitted out in chromium plated furniture. Moreover, it will provide that charming South Sea atmosphere which is so lacking in the palace now closing. :::: AS we go to press the report comes through that fate of 3rd Div. will be settled for all time when N.Z. Parliament meets.

(Cont. from page 1.) "IKE" Smith stnt.

Percy Willis, Joe Andrews, and Jack Telford is a grave one and will be a sever handicap, but victory must be won - the directors, the shareholders and myself are willing to sacrifice anyone to achieve victory".

BEFORE Joe and the boys left they asked that DOZERDUST be forwarded regularly to them, and in a recent letter from our old friend Cyril McRae said he and the boys were waiting on their copy of the paper. Well, here it is boys. From it you will gather that we are still busy on this Island; still busy with the rumours and still looking homewards. Most of us - no all of us would like to be - -, but there is it. :::: WHEN the opportunity occurs drop us a line for our pages - it will be very welcome. Needless to say our camp has changed a good deal since that evening when Cyril heard of his transfer. Between ourselves, Cyril, it looks like most of the lads are prepared to stay here for some years. Gordon Berry is as fit as a fiddle. Charlie Bishop has had the misfortune to be in hospital for some time. Bill Charleton, T.H.P. and Ray Ashby are all looking too fit to want to go home. "Red" Brownlee continues to extend his fame as a watchmaker - or rather, mender. Claude Lowe, "Tired" Norton, C.A.C. Reid and Charlie Story, to mention only a few are upholding the honour of the Services.....it is not correct to say that the rest of the Section is upholding them. Bill Morrissey and Dick Laurie occasionally regale us with hymn, the Red Flag and anything else they can think of in the early hours of the morning. Ossie Austin, & Jack Dodds looked in for a few minutes this week. Ossie still has plenty sex appeal. "Bog Ape" Macale still rates high on grader - always has an eye cocked in direction of passing femininity.

"Bunny" Spencer and Jack Reid missed participation in movie production this week, but put on a good act in Ward 8.

How's the territory up that way for "Hokonui" Cyril? Think it worth doing anything? :::: WE are expecting a letter from Joe Andrews and young Norm Pitt. So we had better not write too much. All the best Boys.

Editor.

"A man oughta put in Wender Horse - Out of Bed - by Greig" was a threat we overheard the other day.

"Killer" Cain, we hear, had a bucket of water thrown over him one morning - just to cool off the "funny" we were told. (Don't get that way "Killer")

HEWEN checking up on your boys up in the bush and find that you threw some pretty good parties over the holidays. Was surprised to hear that the very quiet guy jumped up on the table and started yellin' " Oh, Ya, Oh Ya " like one of them old English bell ringers. Guess no bell ringer ever stood on a table - not on one leg anyway. Then there was a little guy who had a story to tell, but no one would listen to him. But he wasn't goin' to take it that way, so he went round and told - or tried to - everyone. Then there was the chap who says the world made up of Scotchmen and those who wish they were ; guess he found the night very dull until he discovered a bottle of " real " whisky - then he began to whoop. Heard this guy say " Night was nearly ruined for me by some bad whisky I had in Noumea - I tell you it almost burnt my stomach ". GUESS them Naitouli Numbakulls made a terrible din. Rupert was red in the face ; T.P.H. wavin' both arms in the air and his tongue goin' at the same time ; Bob Johnston said he was goin' to stand for parliament; Norma Matthews said he know where Bob would do his standin'. Bob Williamsaft wanted to take Bill Charleton to meet some Kanaka Girls. Said Bill had some- thing that would interest 'em. Dont believe it, meself. Bill dont collect curies, I know, 'cos I had a look in his tent. Maurice Palmer was awful noisy and squealy. Cyril Walker was quiet, but a steady drinker. Ray Ashby , ever seen him drunk? Gosh his face was shiny. A pretty good bunch of boys, then guys up in the bush. Reckon its up to Red Newman, or Bob Johnston to write a poem about the parties. ::: SAY, dont you reckon Jim Tener was tinny, loosing his wallet with twenty five dollars in it, his false teeth, with nothin' in 'em, his hat - nothin' in that either - yes, he lost 'em all when he went into that blackout in Noumea - and the next day he went in and found everything. Maurice Corrie was with him; all he had with was his vittun; no one wanted that, so he brought it home. I was a bit worried on Friday when "Snowy" Lord, Bert Butler and "Cow-Caw-Boogie Woogie,

went to Noumea. They should have left their false teeth with Cliff Foster. They'd been safe with him, 'cos he has a good pair. ::: SAY fellas, here's something like confidential: I want you to help me --- need'nt blab it round camp, but I'm in a jam. Its like this. Jimmy Fleming's gone back to hospital, I got a hunch its just an excuse to have my " Sunshine " look after him. Then there is Rex Concybeer whose gettin' kinda keen on her. Then Scotty the cook, he sneaks over, says he wants to see Percy Burling , but all the time keeps lockin' for my gal. And I 'aint got a chance, see. That young Jimmy, he 'aint too bad lookin' (course Butterfly Brandy knocked him) and Scotty, he's too full of beans these days. Say, what can I do. I hang round the Ward, skin me shins climbin' up them damn concrete blocks - an' I never get a look in. Think the OC would help me. Gosh when I see here my heart goes all funny - same as it did once when I fell in love with a Hindu widow. Had some terrible knockbacks in no time round these islands. ::: SAY - whatya backing in the races ? I like Just Married . Shows a good turn of speed an' - heres a tip - Mic Pasco's backing, it on the quiet. ::: KNOW what I heard on Friday ? That Terry Innes was A.W.L. just on a hundred times back in N.Z. And I heard one of his tent mates say to a fella :- "He's a tough guy our Terry is, he would poke you in the nose as quick as look at you." A good fella to have around, I reckon. ::: TELL you what was funny, one morning during the holidays one of the boys in the Services Section got in front of his tent and said : " I am liberty, I am the Domain statue " and then he posed. Guess I 'aint seen the Domain Statue, but it must stand the weather trouble- some, 'cos this lad forgot to put his pyjamas on. ::: GUESS some of these Wases must be hard to please if they are lookin' for a good man. Take young Frank Sayers - he dont smoke, drink, is good lookin', (hope Sunshine dont read this) has plenty of money and 'aint got a girl. What do you think of that ? Guess I'd better close down. Keep it clean, boys,

STOP PRESS: Handicaps for Trots will be published on Notice Board. Handicapper suffering hangover & Club had to take up collection to " bail " him out of. Women and children may be taken to course with safety.

ACCEPTANCES.

N. Y. D. C U P.

N. Y. D. RACING CLUB'S SUMMER

2 MILLS.

MEETING.

The following are acceptances for N.Y.D.'s. Summer meeting to be held on Works Racecourse on evening of Jan. 17th.1944.

CPL. A. WAGNER'S	HOMER.
SPR. O. GRAY'S	MESS ORDERLY
SPR. S. BURROWS	GLAMOUR BOY
SPR. I.K. SMITH'S	DYNAMITE.
SPR. C. PEACHY'S	NIGHTMARCH
SPR. M. PASCO'S	SET SAIL.

TRIAL STAKES - 6 Furlongs.

Capt. W.P. Boyd's	HANGOVER.
Spr. D. Holwell's	RUIDER
S/M. F. Kronast's	DOZERDUST.
Spr. R. Machus's	SOUVENIR.
Lieut. Tremain's	SLAP HAPPY.
Spr. C. Peachy's	WAACS DELIGHT.

Cup race hard to pick; NIGHTMARCH favoured; DYNAMITE likely to be troublesome - comes from good stable. Set Sail good on distance.

WORKS STEEPLECHASE - 1 1/2 MILES.

DEIBERT & RUSSELL'S	IRRITATION.
SPR. J. STEWART'S	AMPUTATION.
SPR. P. SEAGAR'S	WISHEFUL THEN-KING.

A strong field for the opening event with Waacs Delight a strong favourite and Hangover likely to be a headache.

HOSPITAL HANDICAP - 1 MILE.

CPL. T. KNOWLING'S	REVELRY.
CPL. A. WAGNER'S	GENERAL FORTH
SPR. S. NASH'S	SAPPER'S CHANCE.
CPL. L. BOOT'S	CASCADE.
DEIBERT & RUSSELLS	HALF CUT.
S/M. F. PAUL'S	PREFABRICATION.

S/SGT. SUTHERLAND'S	QUARTERMASTER
CPL. A WAGNER'S	WAACERY.
SPR. M. PASCO'S	NECKLACE.

IRRITATION likely to run well on hot day; NECKLACE may break at jump. AMPUTATION considered safe. Waacery favoured by favorites.

Some good horses in this race with the money so far on Half Cut - a popular and consistent stayer.

GUARD TROT - 1 1/2 MILES.

CPL. C. LOWE'S	GREY DUCK.
CPL. M. CORRIE'S	BURNT OFFERING.
CPL. L. BOOT'S	DUMBEA STAGGERS
SPR. C. PEACHY'S	BLACKOUT.
LIEUT. R. TORRIE'S	DINKUM OIL
SPR. A. SAUNDERS'	IMPROVISE.

SPR. R.H. SCOTT'S	ROLLING HOME
SPR. T. STOKES.	JUST MARRIED.
SPR. J. ROSEN'S	VICTORY.
SPR. C. PEACHY'S	SAPPER'S HOPE
CPL. E. KNOWLING'S	NIGHT OPERA-TION.
CPL. A. WAGNER'S	VICTORIOUS.

Burnt Offering the popular choice. Dinkum Oil a fickle, speedy nag.

PUNTERS favour Just Married as fresh and snappy: Victory and Victorious hard to beat.

Sir,

Academy / Winner ??

I consider your paper is a prudish piece of harmless nonsense. That a group of soldiers cant produce a more vigorous and slap happy rag with a real kick in it makes me feel you all have been under the thumb of mother and wife too long. It is on a par with the parish magazine.

MAN.

That's a kick in the bum. ED

Sirs

As a resident of Christchurch I feel it incumbent upon me to protest at the scurrilous editorial in which you try to be funny at the expense of the South Island without knowing what is funny and what is not. It may be true that some of the people in the far South have porridge three times a day, but I would remind your readers that there is a place called Taranaki - a dreadful place from which missionaries say. There is also the far North where the missionaries have not penetrated. Finally, I would ask, does our OC not come from Christchurch?

NUFF.

If the OC comes from Christchurch he does not boast about it. Speak up Taranaki. ED.

Sir,

Who was the old dodger who wrote the letter condemning Christmas Issue of Dozerdust? Surely the old fusspot of a correspondent knows that a woman who has reared a family and become a grandmother does not have to be taught to suck eggs by an upstart son. Does your correspondent censor the books and papers his mother and wife reads? Does he first go to the movies and then give permission for "mother and wife" to go? Does he tell them which political party to vote for? And does he know that Queen Victoria of blessed memory has been dead many years?

Sapper.

We leave the "old dodger" to answer. ED.

SIR,

ERS Is it correct that the Southern were afraid to accept the challenge to the beer drinking contest issued by the Northerners at New Year? If they did they are neither men nor gentlemen. THIRSTY. Correct. ED

With the movie man clambering over prefabricated parts and, in the final shots, sliding precariously along the roof, the long awaited film, "Hot Air: At Ward One", was filmed on Friday. Construction of the set was completed well within the eight hours which indicated how well Producer Lieut. W. Wise and director Lieut. Tremain and associates Fred Paul and Fred Watts. THE cast was an all Works one, with a splash of and pips.. The heavy lead was taken by Leo Inns as the "L.D. Man" who played the stooge to "Wallace Beery", Bill Bowler who worked up a terrific thirst which he has not yet quenched. "Old Frog" Burnett played the part of innocent kid; Mac Pasco, as the none too respectable bookie; Alan Wagner, the father of the bright young son, which was played by E.D. Clark who was likely to fall into the evil clutches of the "L.D. Man", but who was saved by "The Stag", played by Tag Neal, supported by Oassie Frout, a British Secret Agent in the disguise of a Kiwi. The hero, a one time English gentleman, who brought a secret weapon to bear upon the stooges, bookies and hangers on, was played by Peter Wingfield. Space does not permit detailed praise of all who were on the set, but it was a good show. It is suggested that cameraman showed such dexterity on roof that he would make a good cat burglar. We can assure all the onlookers that he has not been one.

DOZERDUST has been fortunate in securing the services of S/Sgt. Jim Craig as Art Editor for 44.

PROMOTERS of the N.Y.D. Racing Club note with satisfaction that bookies are laying same odds in double charts for N.Y.D. Cup that are being laid for Wellington Cup, N.Z.

WORKS Debating Club Team will meet Transit Camp Team on Jan 20th. at Transit, at 7 O'clock when Ted Knowling, Jim Craig and Percy Kenna will fight a defensive battle on the question that :- "Hollywood Motion Picture Industry has a beneficial effect upon the community in all countries!"

THIS IS NOT A HOME ISSUE.

NEW BRITAIN.

NEW BRITAIN - the largest and most important unit in the Bismark Archipelago which consists of New Britain, New Ireland, the Admiralty Island and adjacent groups such as Lavongai and Duke of York Group.

LONG-CRESCENT shaped island, extending from East to West, with extension to North known as Gazelle Peninsular, at easterly extremity.

THREE hundred and seventy miles long - fifty miles wide. Total area estimated 13,000 square miles.

RUGGED Range of mountains run from end to end of island. Highest peak 7,500 feet.

VOLCANIC in origin. Evidence of volcanic action common throughout island, especially in north where are found Matupi Sulphur Springs. Highest peak - the Mother, 7,500 feet, is an active volcano. Close by are two other mountains - the North and the South Son on the north-west coast. Close to Rabaul are three peaks - the Mother, the South and North Daughter. The first named is extinct.

ERUPTIONS - Vulcan Island, 193 acres in extent, which lies on the south side of Blanch Bay, made its appearance in one night in 1878 during an eruption from the Mother. May 28, 1937, two volcanoes, one at Matupi and one at Vulcan, erupted suddenly. Rabaul evacuated. Two Europeans and over 200 natives killed. Whole district covered with ash and pumice. Vulcan Island formerly a flat island was now a cone 600 feet high.

RAINFALL:-

RABAU - North-eastern New Britain (average 17 years, 87.35in 89.97.)

GASMATA - Southern New Britain (average 13 years 248.14in) 133.99in.

TALASEA - North New Britain (average 13 years 175.17in) 171.17in.

TEMPERATURE - maximum and minimum temperatures in recent years were

Maximum100.2.
Minimum61.
Mean81.27.

HISTORY- discovered 16th Century,

ANNEXED by Germany when she asserted sovereignty over what is now called New Guinea. (About same time Great Britain annexed Papua)

SEAT of Govt. established at Rabaul and exercised through New Guinea Company until 1899.

1899-1914 Imperial German Govt. exercised control.

Sept. 1914 - Australian Expeditionary Force took over.

1914-1920 Military Govt. functioned.

1920 - Territory mandated to Australia.

Jan. 1942 - Invaded by Japs.

Jan. 1944 - U.S.A. troops attack at Cape Gloucester.

RESOURCES - Sulphur deposits, coconut growing, 1940 82,000 acres under cultivation. Other products - cocoa, coffee, kapok and rubber. Dedicated coconut factories at Fonda and Lindenhaven.

COMMUNICATIONS - No railways. 198 miles of vehicular roads. 1915 miles bridle paths. Main means of communication by means of sampans, cutters and sailing vessels. The island has been crossed by patrols at the northern and western extremities, and also near the centre, from Cape Bocchy on the South coast to Bangula Bay, on the north coast.

NATIVES - variety of types, mainly Melanesians. Population amounts to somewhere round 81,264. It is estimated that the uncounted natives may triple the number counted. The above count was taken in 1934.

DISEASES - Dysentery, yaws, hookworm, beriberi, tropical ulcers, tuberculosis, frambosia, malaria, syphilis, leprosy. The latter two are rare.

HEALTH - the Health Dept. in Rabaul possesses (1) staff medical orderlies, including travelling doctors. (2) well equipped Native Hospitals, at Govt. Stations and sub-stations. (3) A laboratory at Rabaul under an expert bacteriologist.

RIVERS - no rivers of importance - short streams only. Rabaul possesses one of finest harbours in Group.

RACING NOTES.

Not To Be Relied Upon.

(By Hitch Hiker)

PROMOTERS of N.Y.D. Racing Club deserve mention in New Year Honours - - in footnotes. Anyway for their effort which has brought to light some very fine horses.....we hope.

THE Cup, of course is the main event. Some thinkers are of the opinion that the distance is too great a strain on the stamina of the nags, but these wise guys forget the splendid breeding of the weeds (sorry, racers) Dynamite, for example, is favoured for the run. " I kn " Smith has been pumping Vitamin D. into him and accordingly will bot heavily. The breeding is -out of STILL BORN By Raisin Jack. :::: ANOTHER favourite is Homer, by Bomb Blast out of Foxhole. This nag has been discussed as a winner since arrival of Works on the island. All eyes will be his way on Monday night. :::: OSSIE GRAY'S Mass Orderly, By 8 o'clock, - Out Of Sight should run true to form and be so far in the lead that he will be out of sight. Supporters should back heavily to get out of the mess. Owner Gray says " I 'aint sayin' nothin' " :::: Glamour Bay, is thought to be too short in the legs which makes punters think he will not stay the distance. His breeding is Public Opinion out of Kiwi. The sire has a good record on picking up anything over the last spurt. The Dam, Public Opinion, is a tickly mare. ::: OWNER PEACY left early for home on Saturday. Rumoured he has gone to interview manager of Indo China bank re overdraft. His horse Nightmarch has a long record and the sire always throws a winner. It will be remembered that Soldier, was a starter in the Pacific Meeting some years ago. Waacery is good Dam. Pay a good divy. says best bookies. ::: PASCO'S SEE SAIL does not carry as much weight as OWNER PASCO, but coming as it does out of DONT FORGET - By Naiculi, it should make a fast race. The jockeys are confident that there will be opportunity for plenty of crooked work at the bends and they say the backers can depend on them to do their dam'det to win by hook or by crook.

TRIAL STAKES should give the six horses something to run for. Capt. Boyd says hang-over a great stayer. Breeding is by CELEBRATION out of ANSE VATA. Both well known in Pacific. Put your singlet, but not your shirt, on this nag. Dave Holwell's Rumour is a gatchy bit of horse flash that will be popular. Watch it. Breeding is by Sergeant out of Headquarters. Dam well known, if not to well liked. ::: SOUVENIR is thought likely on past performances. Out of Glamour Box by Shell (No relation to Shell Oil) Lieut. Trovain's SLAP HAPPY is a frisky thing that may prove a surprisa. The well known PLONK, so closely followed by men who know their taste in this line, say PLONK and CAFE great combination. ::: WAACS DELIGHT finds great favour among men in uniform. Comes from good stables; owned by Peachy, and bred from SWIMMING POOL from NIGHT LIFE. NIGHT LIFE has done wonders over here. OLD TIME racing man, Kronast put DOZERDUST in the field and thinks he will make the distance. Kronast has pawned his false teeth for the race.

OTHER nags to follow in the show are Cascade. - Out of Miss Carriage by Hops. Deibert & Russola choice of HALF CUT is good any day and the breeding - By SEX O'CLOCK out of PUB is well known to all N.Z'ers. QUARTERMASTER should make a good showing. Sutherland is a cautious racer - rarely to be chances. Watch him. JUST MARRIED owned by Tommy Stokes, is worth a bet. Breeding is PROXY out of NECESSITY. This speaks for itself. Try it. ROLLING HOME also worth a few cents. DUMBERA STAGGERS, not very much known of this. Owner Boot may have picked it up on a journey into the interior. Out of SOLDIER by ENERGY. (OR is it out of ENERGY by SOLDIER.?) Keep your eye on Boot on night of meeting. ::: DINKUM OIL has a chance. Out of BATHAN. The latter done some good work and usually has something worth while when trying. Owner thinks lot of neg. PREFABRICATION is easily handled and in hands of good rider should make competitors go for it. Owner Paul says best he has owned for years. IMPROVISE also worth watching. Has done great things. NECKLACE a bith heavy round the neck, but comes from a good stable. BLACKOUT when once going will not stop even at winning post. Take a lot of stiring. Try it.
