

CORRESPONDENCE

(TO THE EDITOR)

SIR,

According to the system of points scoring in connection with the bridge tournament at present in play. *i.e.*, the highest scoring pair at the end of five rounds being the group winners. it is possible for a quartet to double and redouble every hand throughout the three rubbers and so finish the play with thousands of points to the credit of each pair, thus giving them a decided advantage over those who may be playing fair bridge and scoring low.

Would it not be better if at the end of five rounds the pairs with five wins played off to decide which pair represented their particular group.

I am, "Wondering,"

(TO W.T.L.)

Your letter stating "someone is getting in early for the boxing" was indecipherable in parts but I gather that some joker sloshed another joker, who almost went out the monk and then the bloke who did the clocking took to his scrapers. Ed.

Homeward Bound

THERE'S a bugle note,
There's a ship afloat.
Arriving on the tide,
There are L.C.P.'s
Full of old Kiwis
All making for her side.

*They've waited months,
They've waited years,
They've dreamt and
dreamt again*

*Some on the desert,
Some on the crag,
Some with the Hun,
Some with the Slav,
Some in the sick bay,
Some standing by;
All with one thought:
Oh! to be home again,*

And here she is,
She's taking them home.
She may not be lovely,
She may not have form.
But she's something that sails
O'er the seas.

She might go in convoy,
She might go alone,
But however she goes,
She's taking them home.

Home to that island,
The southmost of all
Which names like Dunedin
And Christchurch recall.

*Home to New Zealand
Oh God! What a day,
Do you hear the mate
calling—
The anchor's aweigh.*
